

# Differential pressure flow meter

»FUTURA« series

## MAX

Art. No. 146508 Type No. KDDM-2.2

**Exemplary illustration** 

Differential pressure measuring system with fast response times for the determination of flow, volume and pressure. The simple and robust design of the KDDM-2.2 makes it ideal for use in almost any industrial environment.

#### Advantages:

- practical precision
- system monitoring of flow and consumption changes in real time
- IO-Link enabled
- maintenance-free

Applications: Leakage measurement, operation control, dosage monitoring and consumption measurement.

#### Accessories:

Wall console or alternative a mounting bracket for wall mounting as a component of the »FUTURA« service unit.

Wall consoles with a connection thread for mounting to an existing compressed air system.

Blocking set for easy adaptation as a component of the »FUTURA« service unit.

Adapter plates for adapting different »FUTURA« service unit sizes.

#### **Technical data**

#### **Technical data**

Supply voltage range	24 +/-50 % V DC
Operating voltage	12 - 36 V DC
Flow direction	unidirectional
Measuring system	differential pressure method
Protection IP	IP 65

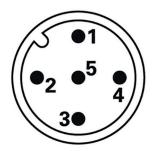

For operation as a standalone unit, two wall mounting brackets must be used, which serve both as a line connection and for mounting. Available in connection sizes G 3/8, G 1/2 and G 3/4.

The KDDM-2.2 must not be installed directly behind a regulator/filterregulator, as this can lead to measurement errors.
