

»GEKA-plus« series, stainless steel

Claw couplings (claw distance: 40 mm) made of stainless steel (similar to 1.4581). Suitable for a wide range of applications, e.g. in the chemical, food processing, water management, vehicle construction, shipbuilding and aerospace industries, agriculture, environmental engineering, etc. The stainless steel series can be easily coupled to the standard brass series!

Operating pressure: Max. 40 bar
Medium and ambient temperature: -10 °C to +150 °C
Sealant: FKM
